

ADESHOLA

Beginner Web Developer | Computer Science Student

PROFILE

Motivated beginner web developer and Computer Science student with a growing foundation in HTML, CSS, JavaScript, Git and GitHub. Passionate about creating responsive, modern and user-friendly websites. Eager to keep learning, build practical projects and contribute to real-world web development work.

TECHNICAL SKILLS

HTML5 & CSS3	JavaScript
Responsive Web Design	Git & GitHub
VS Code	Basic UI/UX principles

PROJECTS

Portfolio Website

- Designed and deployed a responsive personal portfolio website using HTML5, CSS3 and vanilla JavaScript, including dark/light mode, project filtering, mobile navigation and animations.

Clothing E-commerce Website

- Built a modern clothing store interface with product sections, responsive layouts, search/filter concepts, cart and checkout user flows.

Travel & Tourism Website

- Created a responsive travel website featuring destinations, tour cards, filtering, pricing information and clear calls to action.

Other Web Project

- Continuing to build practical web projects to strengthen frontend development, responsive design and JavaScript skills.

EDUCATION

B.Sc. Computer Science — University of Ilesha

Undergraduate Student | 100 Level

CAREER OBJECTIVE

To develop strong professional skills in frontend and web development, gain practical industry experience, and grow into a skilled web developer capable of building high-quality digital products and solving real-world problems.

STRENGTHS

- Willingness to learn and improve
- Problem-solving mindset
- Creativity and attention to detail
- Persistence when learning new technologies
